How to log in or log out

**How to log in**

To log in to myUniHub go to:
unihub.mdx.ac.uk

Click the myUniHub link at the top right of the UniHub front page.

You will need your IT User ID (which you can find on the back of your Student ID Card eg: JK123) and your password. For returning students this will be the password you used to log into the University network.

**UK Students** will receive a password in a separate email at the same time that you receive your User ID. It will be a randomly generated password and you should change it immediately to something that only you know.

**For overseas students**, the password is your student number followed by the first three characters of your month of birth (in lower case) if you haven’t already changed this during enrolment eg: Student Number = M00123456 and month of birth = January, password = M00123456jan.

When you first log in, you must change your password for security reasons. To do this, click on Change your default IT User ID password in the To Do List portlet on the Getting Started page of myUniHub and follow the instructions.

**Register to be able to reset your password in the future**

If you didn’t register your password when you first logged in, click on Register for password reset on the myUniHub login page (https://myunihub.mdx.ac.uk) or go to https://sso.mdx.ac.uk/passwordregistration

Follow the steps to set the answers to a minimum of three and a maximum of ten questions. This is essential, as without registering you won’t be able to reset your password if you forget it in the future.

**If you forget your password**

Click on Forgotten your password? on the myUniHub login page. You will be asked one of the questions that you set up and will be able to reset your password.

**How to log out**

To sign out from myUniHub – click the Account Icon at the top right of the screen.

For the security of your information, it is very important that you ensure you sign out of myUniHub and close your browser.

**Can’t remember your password now?**
