

Relicensing your SPSS 27 installed software – mac

Step 1: Start the IBM SPSS 27 License Authorization Wizard. Follow the points below

- In your Applications folder, you should see an **IBM SPSS Statistics 27** folder. Open that folder
- Inside that folder you should see an application called **SPSS Statistics License Authorization Wizard**. Double-click that program
- The **License Authorization Wizard** should then launch

Step 2: The wizard should display the **License Status window**, which shows the authorization status for all detected SPSS components. Click **Next**.

Step 3: On the Product Authorization window, select the button next to **Authorize User License**. Click **Next**.

Step 4: Enter this authorization code: **f874d9cc88f94041a005** into the top box, click **Add** then click **Next**.

Step 5: If successful, the installer should report “Successfully processed all codes.” Click **Next**.

Step 6: Click **Finish**. You have now completed the license authorization of your SPSS software.
