

Full-Time Student Funding - Jan Start

This guide is for students starting a full time 3 year degree in January 2019.

It should help clarify when you will receive your student loan funding, the start/end dates of your academic year and when to apply to Student Finance England for financial support.

I am starting my Full Time, Undergraduate degree in January 2019, when will I get my student Maintenance Loan payments?

We only request Student Finance England releases your funding once you have completed your Middlesex University enrolment and ID checks, so it is important that you complete these promptly.

If you have applied to Student Finance England, are eligible for their support, and have completed and returned the Statutory Declaration form to them; your Maintenance Loan will be paid into your bank account in 3 instalments, as follows:

21st January 2019

1st April 2019

2nd October 2019

The similar payment dates will be used in 2020 for your 2nd year of study.

What will my Maintenance Loan payment dates be for my final year of study?

If you started your degree in January 2019; when you reach your final year of study you will receive your Maintenance Loan in:

January 2021

April 2021

May 2021

Note: In the final year, student funding is reduced. Student Finance England does this to reflect the fact that for most students the final year of study is shorter.

Are the Student Finance payment dates in line with my study pattern?

No. Your course pattern / academic year will run as follows:

Year	Starting	Ending	Academic Year
Year 1	January 2019	August 2019	2018/19
Year 2	October 2019	May 2020	2019/20
Year 3	October 2020	May 2021	2020/21

When should I apply for my Student Funding?

You will need to make a new application for funding to Student Finance for each year of your studies.

It can take Student Finance England 6 - 8 weeks to process an application for student funding. In order to make sure you receive your funding on time you will need to ensure your Student Finance England application is processed before **January** each year.

We would recommend that you apply early to Student Finance England in case there are any complications with your application.

Note: For your second and final years of funding when you reapply to Student Finance England for support, you should state you are on a January start cycle even though you enter your second/final years in October.
