Mobility Cloud Print - Mac Installation

Important: Cloud print is suitable for printing **basic** Microsoft and Adobe PDF applications. For large graphic files such as zines, booklets, portfolios etc. we recommend you use University desktop computers to print.

To print from your own device, you will need to install Mobility Print.

Step 1: Make sure you are connected to MDXOPEN wi-fi. Open Mobility Print in your chosen web browser

p	Sign In	<u> </u>		×
Set up printing on your Mac	PaperCut			
Step 1	MobilityPrint			
Install Mobility Print and come back here	01 1			
Download and run Mobility Print	Sign in			
	Enter your printing credentials.			
Step 2				
Now we'll connect you to your school or organization to get your printers.	Username			
Connect and get my printers				
When the browser message appears, click Open mobility-print-client	Password		-	
			_	
You're then done with this page - you can close it.				
When it's time to print, just print like you normally do	Sign in and print			
Not your operating system? Try one of these!				

Step 2: Complete Steps 1 and 2 as shown in the diagram above. You will be guided through all the steps necessary to install this software.

Step 3: On completion a new printer will be installed into your laptop. This is called **MobilePrint**.

Step 4: The first time you use MobilePrint, you will be prompted to sign in using your Middlesex University Username (**i.e. AB123**) and your Password. This is a one-time sign in only.

When sign in has been completed, your print job will have been sent and you can release it from any printer across Campus
