Downloading Nvivo on your personal Windows device

What is **NVivo**? It is a qualitative data analysis (QDA) computer software package. NVivo is used to assist qualitative researchers by analysing and organising unstructured qualitative data such as surveys, interviews, articles, web content, and social media data, where deep levels of data analysis are required.

Step 1: Go to **'https://kbox.mdx.ac.uk'.** Log in with your **student User ID e.g. AB123** and password. Do not try to log in with your University email address.

Middlesex University London
Self Service Welcome to the University Software Download Service. Please login using your Middlesex Userid and Password. Once you have logged in click on the "Downloads" tab on the left hand side of the screen, this will allow you to see the software available for you to download. You can search for software by title, vendor or label. If you experience difficulty in using this service or cannot see the software that you require, please contact the IT Support Team.
Log in with your User ID and University Password: AB123 (Note: Credentials will be saved on this computer between sessions unless you explicitly "Log Out")

Step 2: To access the list of software titles, click on either of the Download Buttons
