

The Changing the Culture Initiative is a university-wide programme of projects which aims to shift attitudes, values and behaviours and create more **inclusive and tolerant communities**.

The multimedia learning materials included below (many produced by our own students) are a **celebration of the diversity of our student communities** and the different ways in which we can all help **promote inclusion** and **positive behaviours**: values which lie at the heart of Middlesex and everything we stand for. They will also help you and your fellow students to stay safe and enjoy a truly rewarding university experience.
