## Welcome to SLA Yearbook 2022!

As spring says farewell, and the weather gets warmer we say goodbye to another academic year. And what a year it was! Looking back to September, we didn't know what to expect in upcoming months. Curiosity and excitement were followed by uncertainty and slight fear; however, we knew we need to make the best out of whatever comes. And so, we did. SLA scheme once again grew with so many talented, committed and passionate individuals, working hard every day to help out students, and tutors, and made an impact that will never be forgotten. Every single one of you was a unique piece of puzzle, contributing the big picture.

I hope that as you read this Yearbook, you will look back on the past months with a smile on your face, reflecting on your own unforgettable and heart-warming memories. Let this be your time machine, taking you back whenever you feel sad it's over. Afterall, this academic year was like a good book, with a storyline of each one of us. The one that makes you feel a little sad when you turn the last page, but the experience of reading it will stay with you forever.

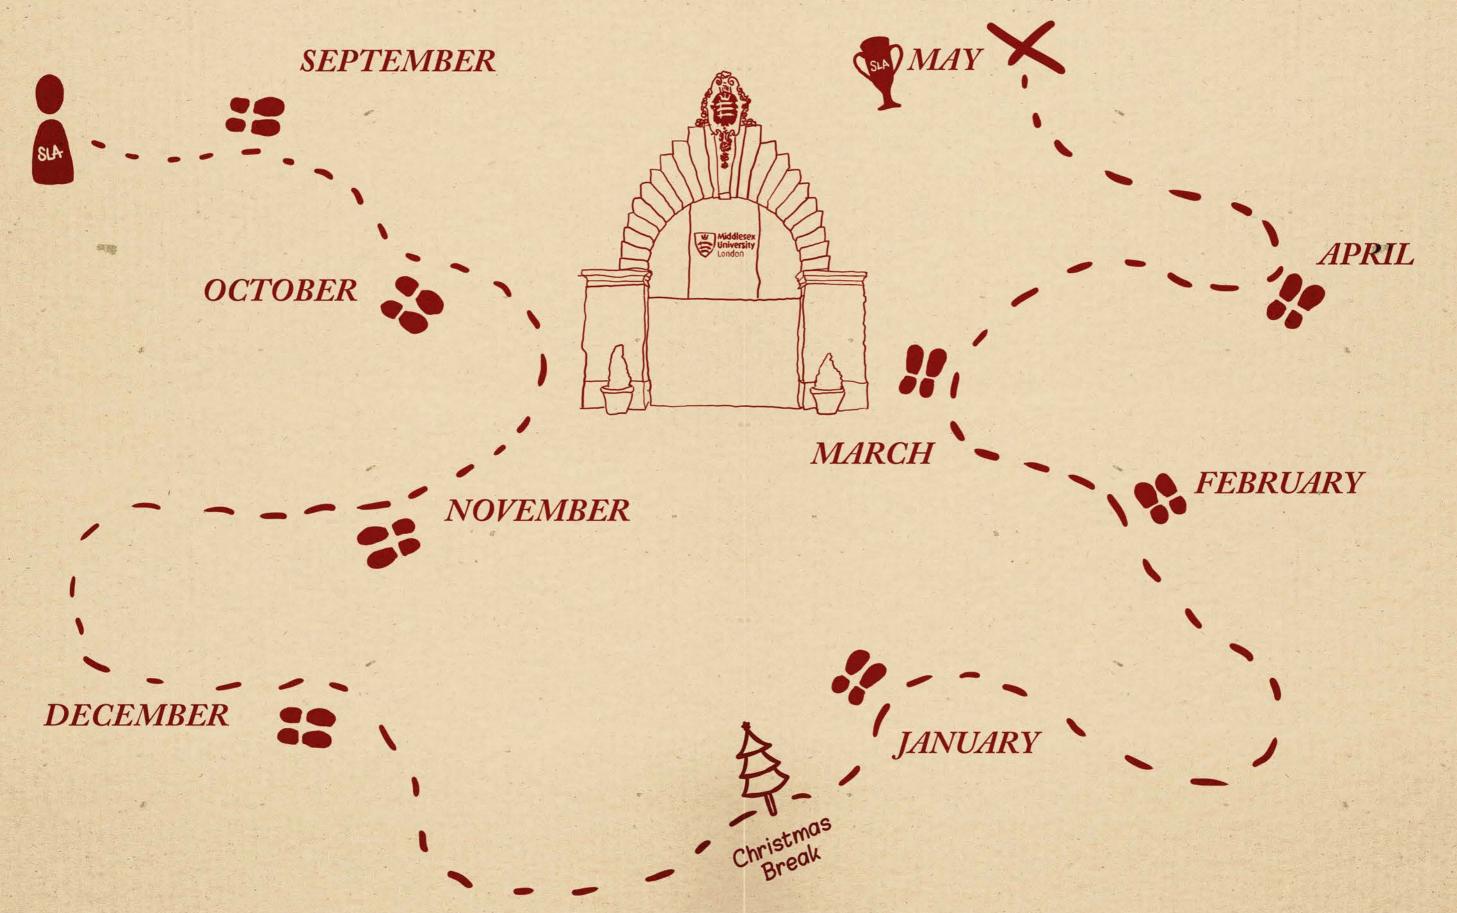

Daniela Humajova, Senior SLA and Chief Editor

# SLA ROAD MAP: this is how our year went

## SLA AWARDS CEREMONY

SLA Roadmap Highlights Highlights Sept - Dec

## September

As Fitzgerald once wrote, "Life starts all over again when it gets crisp in the fall", the SLA scheme started all over in September with the training of new SLAs. The training took place online, consisting of webinars and live break out room activities, where new SLAs got a chance to put their newly acquired knowledge into practice for the very first time.

As the academic year started, SLAs got assigned classes to support and started slowly settling down into their role. October was the first month after lockdown with face-to-face classes, which was both exciting and challenging, however the world has started feeling somehow back to normal again. Also, Senior SLAs held their first meetings and got to know their new amazing cohorts, as well as the SLAs got to know each other a bit more!

With Christmas and holiday cheer around the corner, SLAs got their so deserved breaks to spend time with their family, friends, and regain energy for the New Year. Middlesex hosted a wonderful MDXmas Market, where students got a chance to showcase their talents and skills.

## November

In November, days started to get shorter and colder, turning the last leaves brown. And as the leaves gently settled to the ground the SLAs settled and got comfortable in their roles. The PAL team with the help of SSLAs commenced the observations, and SLAs got first feedback on their performance. The university also hosted plenty of events to celebrate Movember, and spread mental health awareness.

## SLA Roadmap Highlights Jan - May

## January

January marked the season of new beginnings. It is a time when the feelings of hope and aspirations are heightened, and all our dreams are achievable and within our grasp. It is the month where we wish to build good habits, learn new skills and become the best possible versions of ourselves. I hope the goals, wishes, and dreams you had for yourself in January have begun to manifest themselves into reality!

The International Mobility Event which was organised by the lovely Aleksandra was also held in January. This event aimed to share the relevant resources and information regarding student exchange programmes at Middlesex University. This allowed SLAs and students to be aware of the opportunities available to them so they can take advantage of them!

February is a month of love and appreciation where everything seems a little brighter than usual. The Student Success Festival was held in February which involved a long and fun week of adventures, challenges, and prizes! The theme for this year was an online / on-campus treasure hunt which included prizes such as a brand-new iPad and had an exclusive panel of high-profile guests such as Andrea Campbell (LinkedIn Learning), Kurt Barling (Journalist), Alysoun Barrett (Executive Board Member at Biodynamic Agricultural College) and many more!

## March

Thursday 3rd March 2022 was University Mental Health Day. Following the consequences of the pandemic, we have tried to incorporate promoting the importance of mental health into the SLA Scheme. We did this through the Wellbeing and FIKA Project. This project was hosted by Aurel, Leidy and Ojaswani and through their sessions, they aimed to introduce SLAs and students to a more general side of well-being and what you can do to get help / improve your mental wellbeing. This included promoting the services and facilities available to you through the University that, surprisingly, not many people knew about! They also introduced FIKA which is a mental fitness development platform which aims to increase personal performance as well as develop teamwork! We hope the tips and skills learnt through these sessions will be able to aid you in looking after your mental well-being in your personal and professional lives!

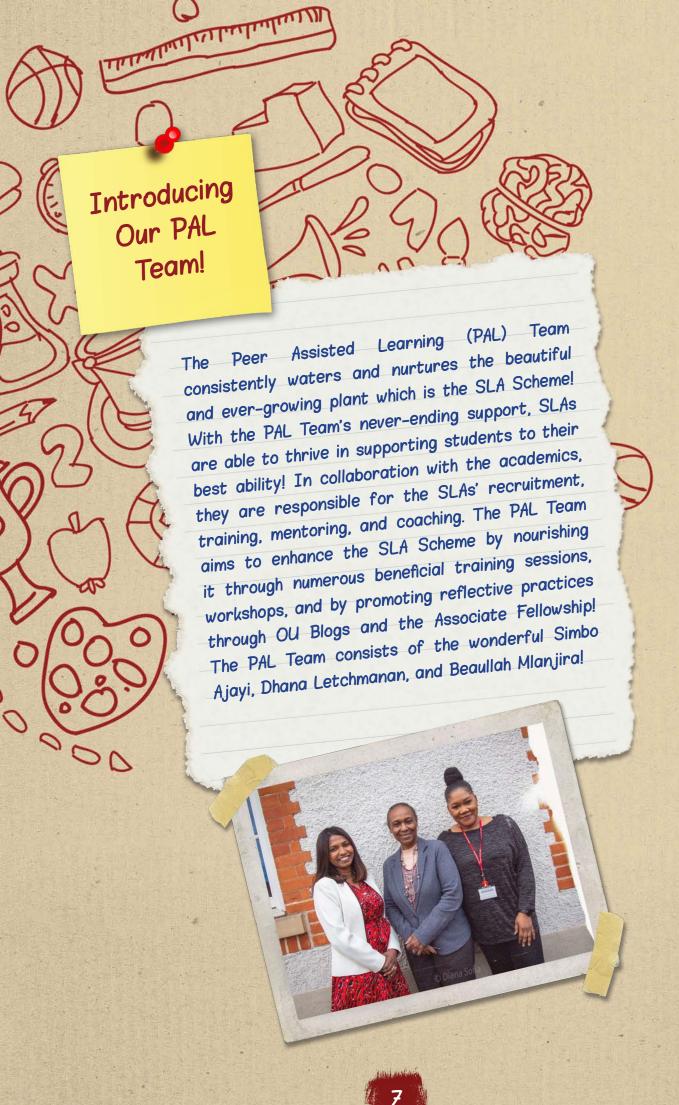

May was a month of celebration where the SLA Award Ceremony took place! It was one of the first in-person events held by the PAL Team following the consequences of the pandemic. It was such a nice and refreshing experience to be able to meet so many of you in the flesh instead of staring at each other through our computer screens. There are so many hard-working, engaging, and kind individuals part of the SLA Scheme who always give their all. We hope you felt that your efforts were recognised through this event! All the staff that are part of the scheme feel grateful every day for the wonderful individuals that keep this scheme running every year and we hope you also feel proud of all your hard work throughout this year. Thank you for your perseverance and efforts that will not be forgotten.

Despite being the middle of the year, April signals the end of the academic year. By this time of the year, everyone is finished with lectures, seminars and workshops and we are encouraged to begin spending our time revising and preparing for our assessments. I hope that all your hard work shines through in your work, and you achieve the best possible results you could hope for. But also remember, your results do not define you! Assessments are not always an accurate representation of the knowledge, wisdom, and skills that you possess that can shine through in settings different from assessments. I hope you can spend your summer enjoying the sunshine and freedom and that you are able to thrive!

## To SLA Class of 2022

It has been a privilege working alongside you in supporting student learning, building learning communities and enhancing employability.

I remember when you started on this journey at the start of your tenure, some of you were nervous, others more confident; but together you endeavoured to become better educators and reflective practitioners. Despite the challenges that you faced as students yourselves in light of the pandemic, you ensured that your peers were aptly supported and empowered for success. For you, learning had to go on earnestly. And so it did – due to your resilience, commitment to technology enhanced learning and dedication to duty. Thank you!

Let the pages of this yearbook remind you of all the memories and experiences of your role. Let these pages speak to you about who you are as educators and what you have achieved as motivators. Harness the relationships you have made and the bond you have established as these will become invaluable networks. Build on the skills you have enhanced in this role and narrate your journey with pride as these skills may become the foundations to success in the workplace. Reflect on the toil and time you invested, and the tests you encountered along the way as you scroll through this book – they all add to the testament of your effort – that you served your peers diligently and helped them become better at their learning!

Keep up the good work and in all you future endeavours, long may you continue to Succeed Lead Achieve!

Thank you for another successful and productive year. My sincere thanks go out to everyone for their endless My sincere thanks go out to everyone for their endless support for students both online and on campus. I want to express my sincere appreciation for those of you who, to express my sincere appreciation for those of you who, as always, went above and beyond what was required to as always, went above and beyond what was required to as always, went above and pleasure working with all has been an inspiring journey and pleasure working with all has been an inspiring journey and pleasure working with all has been an inspiring journey and pleasure working with all has been an inspiring journey and pleasure working with all has been an inspiring journey and pleasure working with all has been in inspiring journey and pleasure working with all has been an inspiring journey and pleasure working with all has been an inspiring journey and pleasure working with all has been instrumental in our of you. More importantly, you have been instrumental in our excellent in your studies, and you have demonstrated that excellent in your studies, and you have demonstrated that nothing is impossible when it comes to providing excellent nothing is impossible when it comes to providing excellent nothing is impossible when it comes to providing excellent nothing is impossible when it comes to providing excellent nothing is impossible when it comes to providing excellent nothing is impossible when it comes to providing excellent nothing is impossible when it comes to providing excellent nothing is impossible when it comes to providing excellent nothing is impossible when it comes to providing excellent nothing is impossible when it comes to providing excellent nothing is impossible when it comes to providing excellent nothing is impossible when it comes in the providing excellent nothing is impossible when it comes in the providing excellent nothing is impossible when it comes in the providing excellent nothing in the providing excel

Dhana Letchmanan Peer Assisted Learning Coordinator

the traductor hardrades 1/1

It has been such an amazing experience working with you, most especially witnessing the leaps and bounds you all have had to overcome. It has been a challenging year but tenacity and resilience in rendering academic support to your fellow students with so much ease. You ought to be proud of yourself for impacting the lives of others and their learning experience, mentoring, and coaching even though you various journeys, look back in introspection and remember the smiles that warmed other's hearts. You are conquered, unstoppable and amazing. Go do well, remember to always smile. Best of luck in all your endeavours.

Beaullah Mlanjira Peer Assisted Learning Coordinator

"I'm grateful I was given the opportunity to join the scheme both as an SLA and as a Senior. I had a chance to get out of my comfort zone, and to learn extremely valuable skills. Ultimately, I am also happy I was able to witness others in the scheme working together and grow"

- Aurel Marian

"My journey as an SLA and SSLA has taught me how important it is to always accept and invite the opportunities to grow, and savour the challenges along the way by choosing to move forward and learn every day. And to learn, we need to get out of our comfort zones, and throw ourselves into the open."

- Daniela Humajova

"A stated by John Vance: "The soul would have no rainbow had the eyes no tears". And as both an SLA and SSLA, I was the first point of contact of many students in distress, and there is nothing more satisfactory than seeing the students you supported improve and achieve all their goals with flying colours."

– Ciprian Florin Ifrim

"Being an SLA, and Senior SLA allowed me to gain different skills, such as communication, coaching and mentoring. I've gained confidence in supporting other students, and I've witnessed multiple transitional moments for them, which has been extremely gratifying. I've felt privileged to be part of their journey."

- Tony Pisarski

"Pursue your dreams, even if you think you don't have what it takes, everything will come in its own time."

- Leidy Paola Jaramillo

"The time I spent in the Senior SLA role was the best experience of my university life. With so many supportive and motivating people around me, it was a rewarding experience. A fantastic opportunity, I am glad to have been a part of this journey to learn how the community can contribute to creating a better university and experience."

- Paula Simelionyte

"I was very hesitant to become an SLA, as I didn't know if I would be able to handle it, so I almost turned it down. Luckily, I didn't and it turned out to be one of the best decisions of my life. Looking back, it is absolutely clear to me how much it changed me. Before, I would say 'no' to anything that scared me, and now I say 'yes' to almost every opportunity that comes my way. Being an SLA made me more confident than ever, it helped me see myself as a young professional and I will forever will be grateful for having the opportunity."

- Aleksandra Filipova

"Upon reflection on my senior SLA role, I can see just how much it had allowed me to grow not just as an individual but also as an academic. It had been a great privilege to be a part of a role that allowed me to make a difference in a sense. To create a happy, productive and collaborative environment for all my SLA which I found highly rewarding to see."

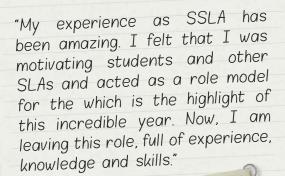

- Migle Simaskaite

"The SLA experience has allowed me to come out of my shell and learn to have confidence in myself and my knowledge. I have learnt so much throughout these past 2 years both academically and personally. I'm grateful to everyone I've worked with who has assisted me so kindly and to all the friends I have made through this experience. I will always look back at these 2 years with a warm heart!"

– Aini Abdulahi

- Maria Ntyli

"Being a Senior SLA has provided me with the extended skills that I already had whilst being an SLA but relating to managing a cohort of SLAs and assisting the PAL team. The role was enjoyable, productive and allowed me to develop my personal and career skills as it has provided multiple opportunities to me outside of my studies at Middlesex University!"

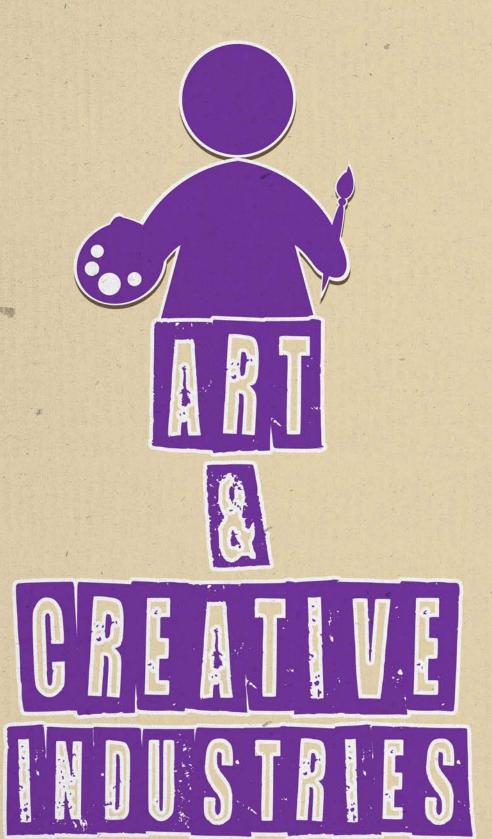

- Jonathan Ogilvie

"This was an amazing journey that allowed me to grow personally and professionally. Thanks to the wonderful team of Senior SLAs and the PAL Team that supported and helped me through the year!"

- Soumia Benfares

I became an SLA To help students and expand my knowledge. I enjoyed assisting students with their learning and supporting the students. The scheme has helped the students very much and helped me to gain a lot of confidence. I will miss the students I supported.

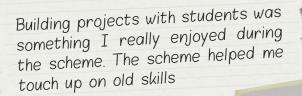

Alex L. Ali BSc Computer Networks I wanted to be a SLA as I wanted to be able to share my knowledge and skills with others studying the same course and help them to achieve their highest standard. The highlight for me as an sla was getting to know the younger years and being able to support them through the first few years of being a student nurse. I think I enjoyed the most was being in the skills labs helping hands on. The scheme helped me to become more confident in my abilities and therefore helps the students see what they can do.

Ciara Bowes BSc Child Nursing

Alex P.Popovici BSc Computer Information Technology

Jamally K FRANCIS Architectural Technology

I really wanted to be a SLA because I was looking for new opportunities that will help me to develop new abilities and gain confidence. I particularly loved assisting the students in developing self-confidence and demonstrating that struggling during the learning process is not uncommon. The scheme promotes student bonding by demonstrating that everyone faces challenges on their path to success.

Joanna Mikolajczak Psychology with Criminology

I particularly loved assisting the students in developing self-confidence and demonstrating that struggling during the learning process is not uncommon. The scheme promotes student bonding by demonstrating that everyone faces challenges on their path to success.

Javier Ortega De Vicente BA Product Design & BEng Product Design Engineering

The SLA experience has allowed me to come out of my shell and learn to have confidence in myself and my knowledge. I have learnt so much throughout these past 2 years both academically and personally. I'm grateful to everyone I've worked with who has assisted me so kindly and to all the friends I have made through this experience. I will always look back at these 2 years with a warm heart!

"Unow what sparks the light in you. Then use that light to illuminate the world"

Aini Abdulahi LLB Law Seeing that I was able to help my students really brought me so much joy. I'm constantly recaping the content and it's a great way to share our current perspectives on the content. Feeling like a "mini" lecturer is something I am going to miss a lot

I've learnt a lot being an SLA this year and I'm excited for what I will be able to achieve next year

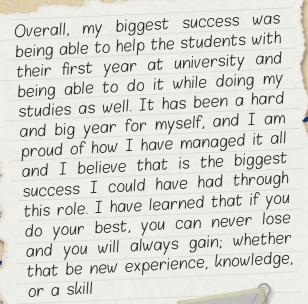

Eesha Fareed BA Business Management

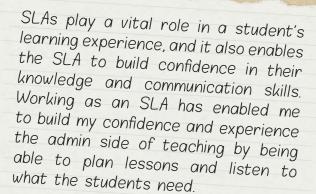

Being an SLA has been a significant role in my student life. It made me realise there is always a chance of learning something new and that there is no limit.

Adela Moravcová

Tasha Richards-Clarke

Charlotte Smith

One thing I have learnt about myself through being an SLA is that I love helping others to learn. I knew before I was an SLA that this was something that I loved, I knew that if I could help anyone in any shape or form I would, and this experience has allowed me to do this. This experience has helped me to gain more confidence, in both myself and in my abilities.

Megan Forbes-Ritte

It has been an experience I will remember for a long time and wish to experience again in the near future. Looking back, I would advise myself to take my time and enjoy the present. I realised there were a few moments where I over worked myself and stressed myself out which only made different situations difficult to handle. Nevertheless, I would like to say I have positively responded to these stressors and would like to continue to do so in the future.

Ameenah Rahman

As the term comes to an end, my overall journey as an SLA has been a wonderful experience. I have learned so much from other students and lecturers. I have been able to brush up on my communication skills and become better at explaining a situation. Seeing the same students throughout the full year and watching them improve everyday also gives me the motivation to improve myself as a student.

Jasvin Singh

I am extremely grateful for this experience as I had the opportunity to evolve both professionally and personally. It has been an awesome journey and assisting my students in achieving their goals is a proud moment for myself.

Sara Cortellazzi

It is crazy that it's come to an end. Being an SLA has been a difficult yet wonderful experience, and I am glad that I was given the opportunity to participate in it. The process of assisting others in their learning taught me a lot about myself; about how well I can handle things despite a lack of confidence, and how I deal with others in this entirely new paradigm of conversation / human interaction.

Julian Ing

## Goodbye Message!

The SLA scheme is founded on distributing knowledge through a large community to assist one another in achieving success. I would like to thank you all for persevering through this year, for giving your all when facilitating learning and displaying mentoring and coaching skills throughout the scheme. I would also like to give a special thanks to our wonderful PAL Team, Senior SLAs, and the backbones of this scheme, our Student Learning Assistants! With everyone's teamwork, we have been able to facilitate learning creatively and innovatively once again!

The assistance provided by Student Learning Assistants will always be extremely impactful to all the students, staff, and others you have helped throughout the year. As said by Helen Keller, "Alone we can do so little; together we can do so much". With the collective teamwork displayed by every single person that is part of the SLA Scheme, the scheme would not be able to run. Once again, thank you to everyone who was part of the SLA Scheme, including Academics and members of staff who have all contributed to our incredible work throughout the 2021/2022 Academic year.

"If you have knowledge, lets others light their candles in it"
- Margaret Fuller

Thank you for reading!
