

## Downloading SPSS 28 for Windows onto your personal device

**Step 1:** Launch the University **software download server** to reveal the login box

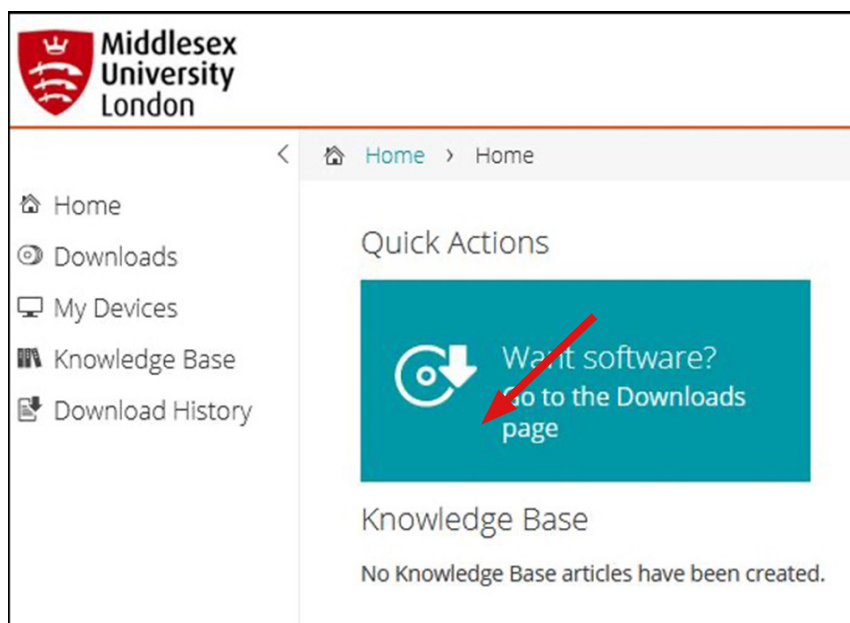

The screenshot shows the 'Self Service' login page for the University Software Download Service. It features the Middlesex University London logo at the top. Below the logo, the text reads: 'Welcome to the University Software Download Service. Please login using your Middlesex Userid and Password. Once you have logged in click on the "Downloads" tab on the left hand side of the screen, this will allow you to see the software available for you to download. You can search for software by title, vendor or label. If you experience difficulty in using this service or cannot see the software that you require, please contact the IT Support Team.'

Below the welcome message are two input fields: 'Login (user name):' and 'Password:'. A note below these fields states: '(Note: Credentials will be saved on this computer between sessions unless you explicitly "Log Out")'. A blue 'Login' button is positioned at the bottom center of the form.

**Step 2:** Log in with your University User ID e.g. **AB123** and your University Password

**Step 3:** Click on the round button

**Step 4:** To find the required version of SPSS, you can either scroll through titles or enter SPSS in the search dialogue box

Student & Staff SPSS-27 for windows 64bit (Home Use)	IBM SPSS	27.0.0.0	(WINDOWS 64 bit) - Installation- Statistical analysis of data. SPSS allows for in-depth data access, analytical reporting.

Download Times  
1.5Mb: 74 Min 15 Seconds  
10Mb: 11 Min 11 Seconds  
100Mb: 1 Min 7 Seconds

Software Download  
Click the "Download" button to begin the software download process.

**Download** Cancel

**Step 6:** Important: You need to click the terms and conditions and then copy and paste the SPSS license key as shown below. It will look like this:

**SPSS Produce Key: da2d9ae03508942ed562**

This license runs out every August. To reapply the new license, please visit the [‘How To’ guides page](#)

**Step 7:** Click the Download button. When it's downloaded, the file is not ready to use as it is 'zipped'. To unzip, right click and choose **Extract All**

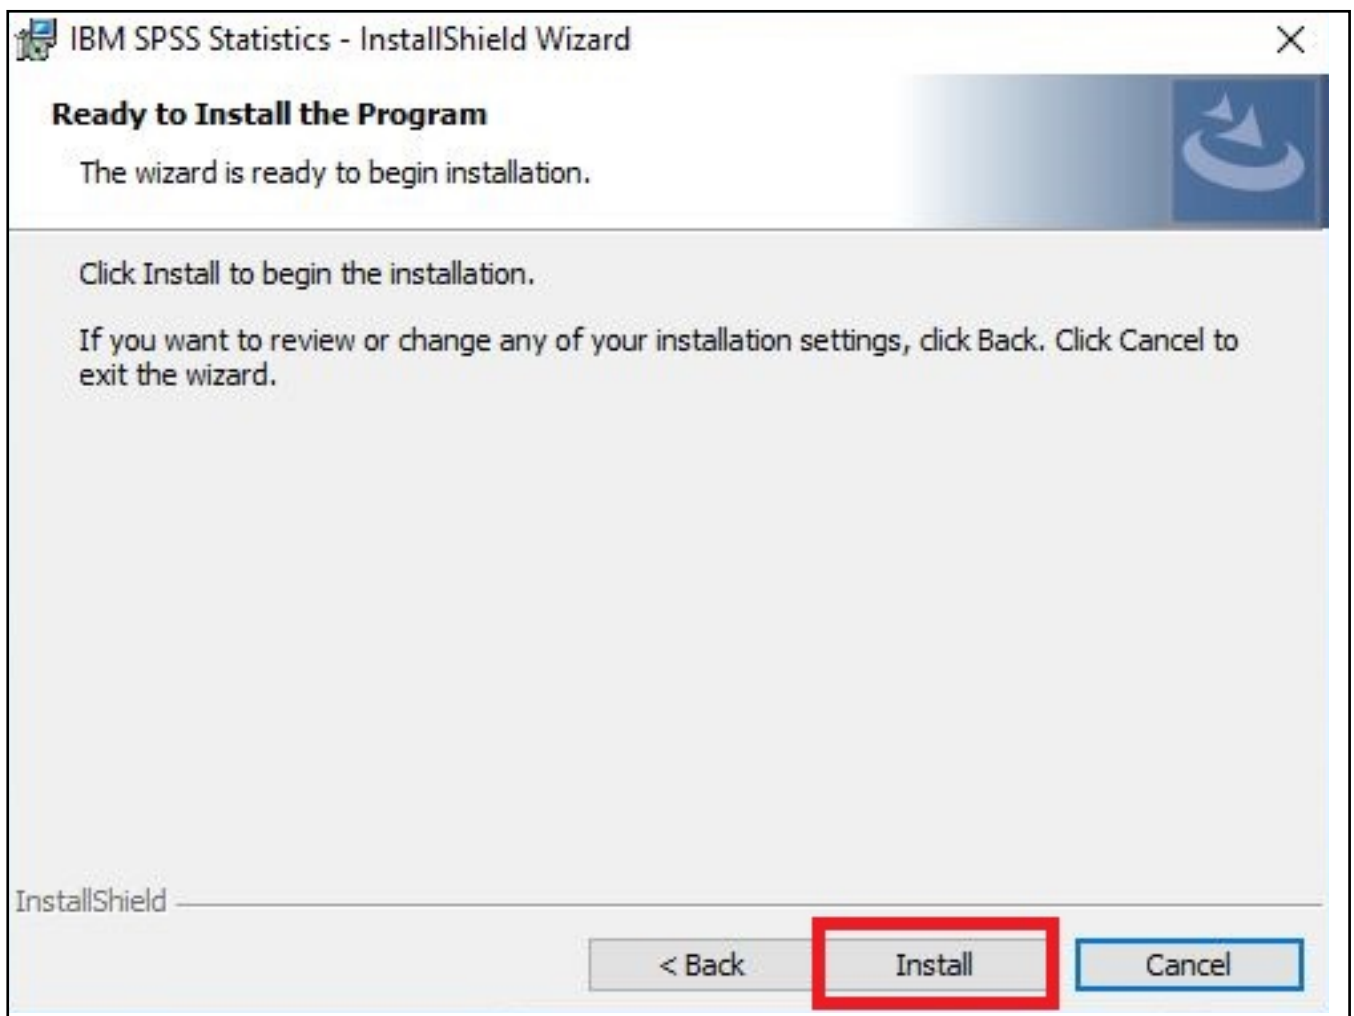

**Step 8:** A new folder will be created which will contain this file.

Name	Type	Size	Date modified
 Statistics_28_Win_64bit.exe	Application	860,153 KB	16/08/2021 12:10

**Step 9:** When you run the main exe file, right click the exe file and choose **Run As Administrator**.

**Step 10:** You will see the standard installation menu window, followed by a couple of licensing agreement statements.

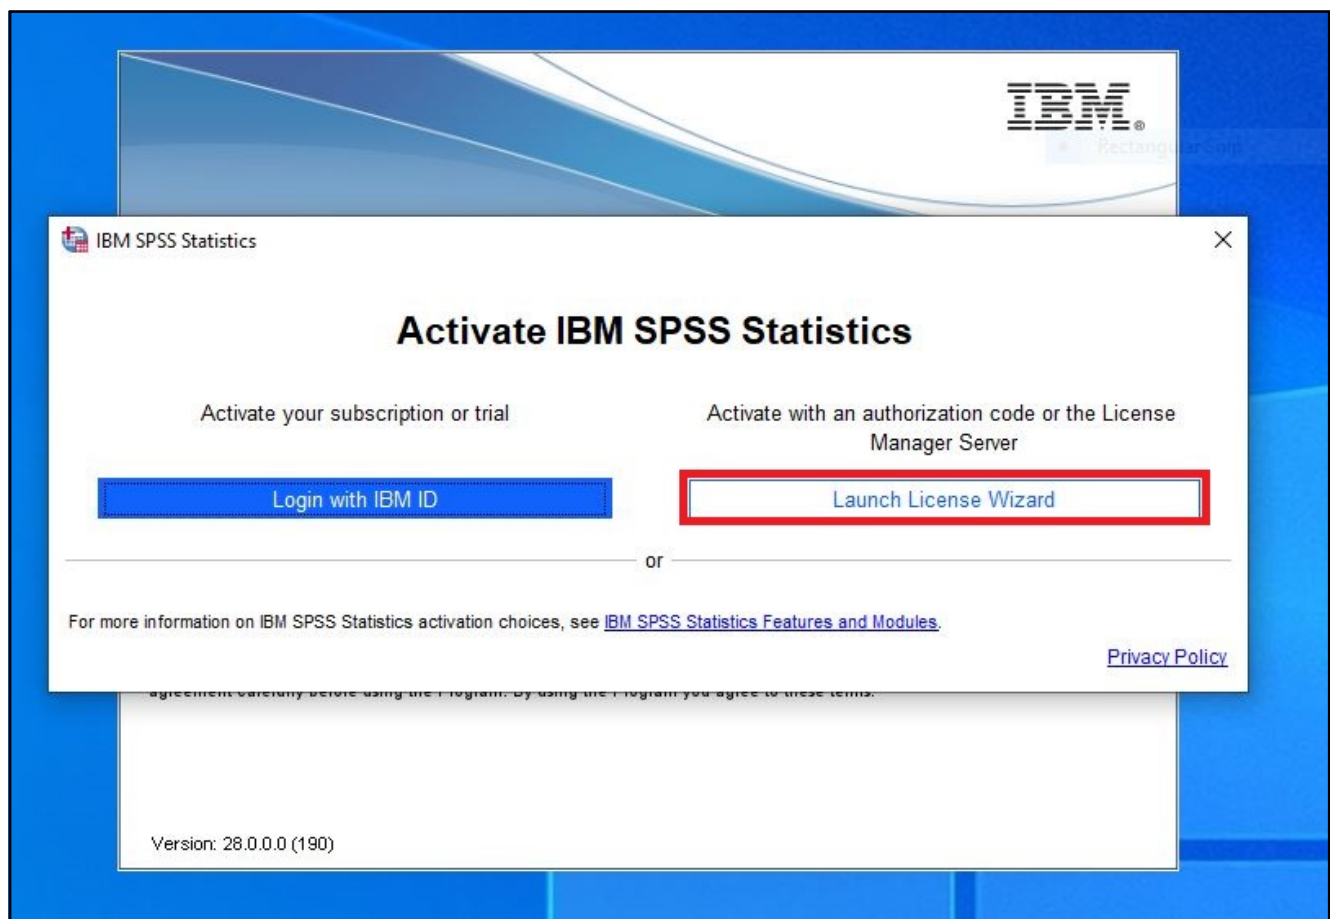

**Important:** you will have to accept and click next on all windows, until you see the window below, where you will click install, to install SPSS onto your computer.

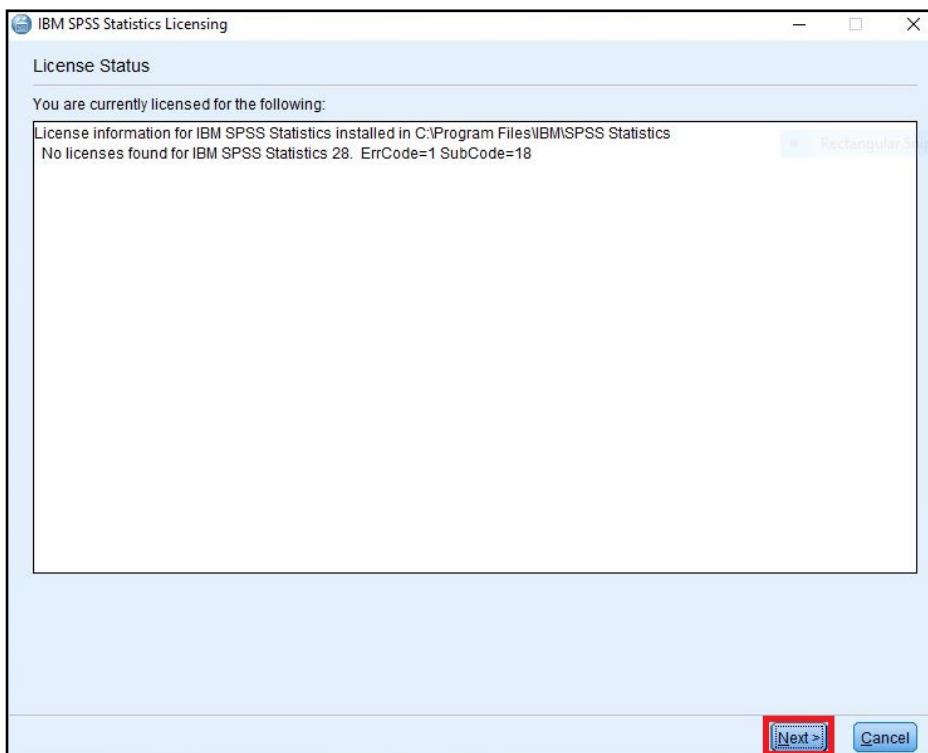

**Step 11:** The following window will be revealed showing the progress of the installation. When the installation has finished, click finish.

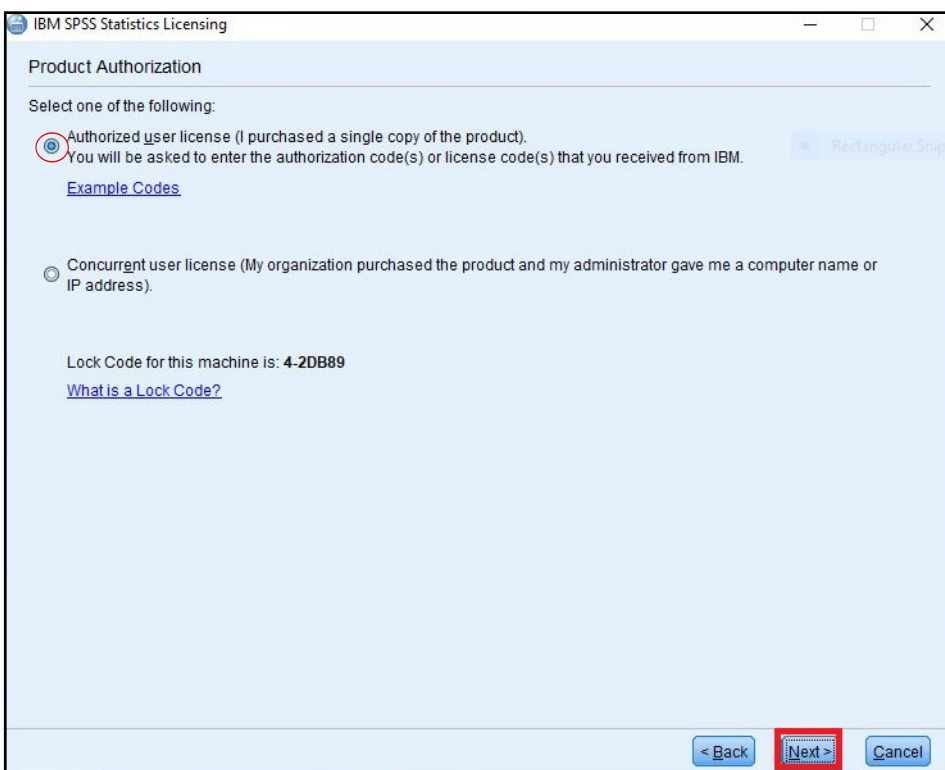

This brings up the **Activate IBM SPSS Statistics** window, where you will license the software. Click **Launch License Wizard**.

**Step 12:** Clicking the **Launch License Wizard** button opens the License Authorization Wizard, Follow the sequence below: Click **Next**.

Select the top option for licensing, then click **Next**.

**Step 13:** Paste the SPSS Produce Key from **Step 6** into the **EnterCode** box, Click **Add**, then **Next**.

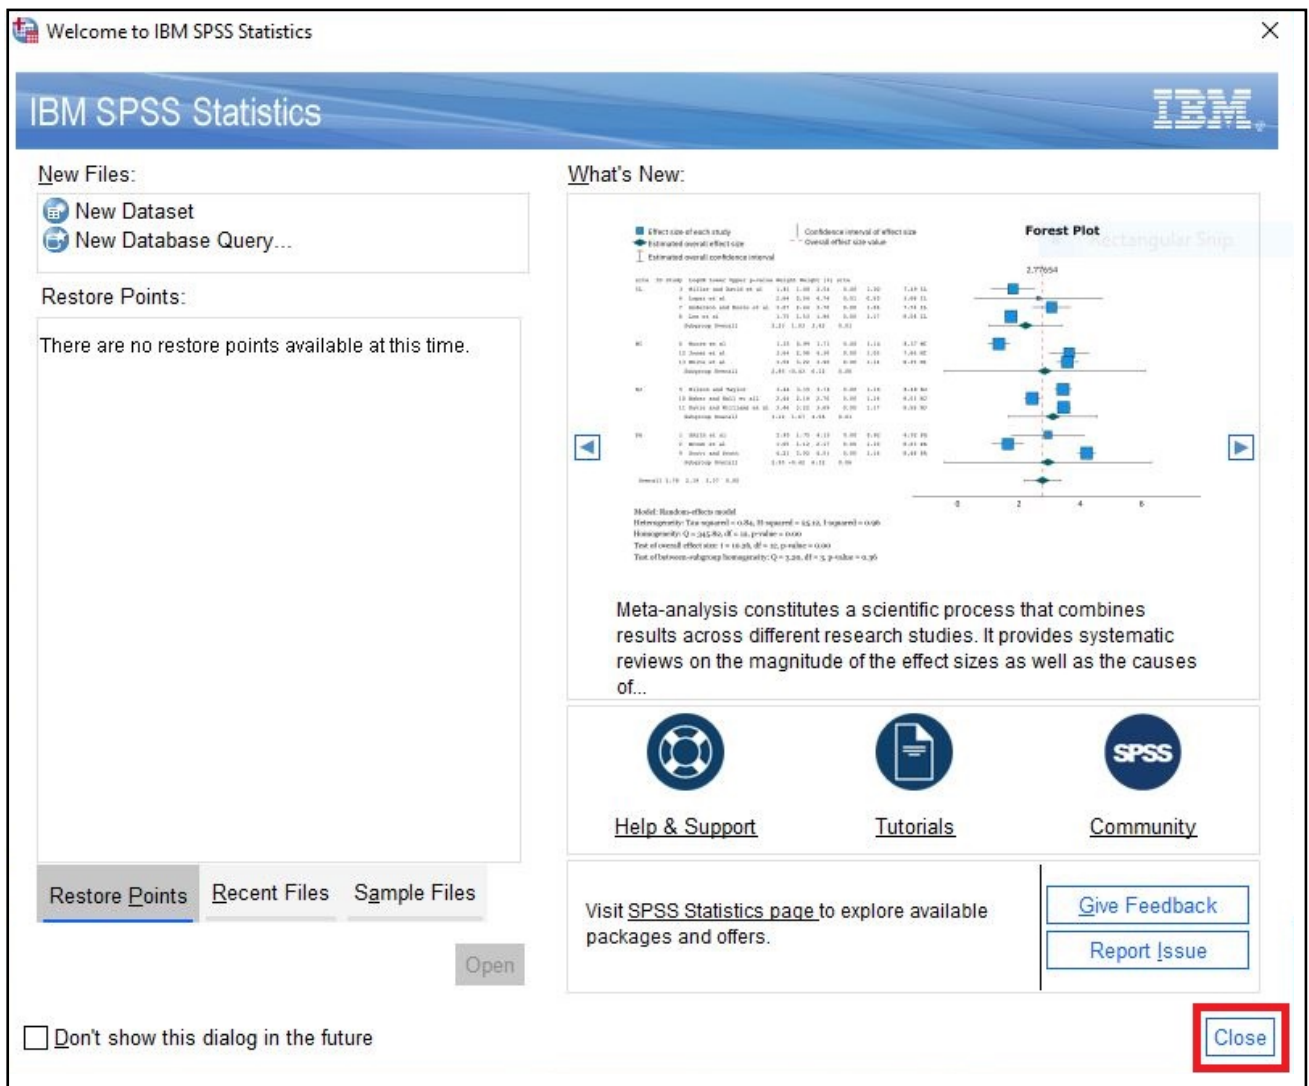

The green text means your license is active, click **Next**, then on the following window click **Finish**.

**Important:** You may get a Windows Defender security alert, click **Allow Access**.

Step 14: Opening SPSS reveals the Welcome menu. Click on **Close** and you will see the main Data window.

The installation is now complete and you are now ready to use SPSS 28.
