

Whether studying on Campus or at home, a secure Wi-Fi connection must be made prior to signing into your loan laptop. Please follow the instructions below.

Off Campus Sign in

1. Click the **Globe 'Internet'** on the bottom right-hand corner of the screen

2. Select your desired network to connect to
3. Once connection has been made, click on the **'Network sign-in'** icon

4. Enter your Middlesex University IT User ID (e.g. AB123) and password. Press enter

5. Click Connect on the window that appears. **Important:** it can take up to 15 minutes to establish an APM connection

After successful connection...

AppsAnywhere will launch and an automatic validation process will start. From here, you will have access to Adobe, SPSS and many more software applications. Microsoft applications (Word, PowerPoint Excel and OneDrive) are installed locally on the laptop and can be found by clicking start.

If you are experiencing problems and need assistance please contact **UniHelp** online: unihub.mdx.ac.uk/support/unihelp

For loan laptops Terms of Service: unihub.mdx.ac.uk/study/it/laptops-for-loan more information

For other instruction guides: unihub.mdx.ac.uk/study/it/how-to-guides

On Campus Sign in

1. MDXSDA-Student Wireless will connect automatically

2. Sign in using the Other user box with your **MDX IT User ID** (e.g. AB123) and password. Press enter.
