

Getting Started with SPSS

This workshop will introduce you to some of the key features of SPSS. You will be shown how to enter data and produce some charts and tables. If you have some data of your own you can bring it with you to work on.

Analysing Data in SPSS

For this workshop you should bring along an SPSS file containing the data you want to work on. You will be given a general introduction on how to use SPSS to carry out statistical tests and interpret the results. You will then be given help to analyse your own data.

An Introduction to Statistical Tests

This workshop will provide a brief introduction to hypothesis testing and p-values. We will also discuss some key statistical tests (t-tests, ANOVA, correlation, regression, chi square), when to use them and what they can tell you. (Note that we will not have time to cover using SPSS or Minitab to carry out the tests.)

Employers' Numeracy Tests

This workshop will help you prepare for the numeracy tests that are often part of the graduate recruitment process.

Employers' Numeracy Test: Practice Session

In this session you will try a numeracy test under exam conditions and then get feedback on your attempt.

Professional Skills (QTS) Numeracy Test

This workshop will help you prepare for the numeracy test, which you need to pass before starting a course leading to Qualified Teacher Status.

Using Excel to Summarise Data

This workshop will show you how to use Excel to calculate totals and averages and to produce charts and tables.

Can I do a Meta-Analysis?

This workshop is for students who are undertaking a systematic review. We will discuss what kind of data you need to be able to extract from your papers in order to produce a Forest plot and what the plot tells you.

To request an MSN workshop from the list above please complete the request form at <https://tiny.cc/workshop-msn>

If you would like a workshop on a topic that is not listed here please send us details and we will let you know whether we are able to help. Email us at numeracy@mdx.ac.uk
